A chair that follows your spine

一把跟随脊柱生长的椅子

医学发现，人体肩颈腰痛，最大诱因来自脊柱负荷过重，脊柱压力过大，肩颈腰肌肉弥补压力导致病痛。坐下时，椅背是脊柱唯一的屏障，我们因身高不同，脊柱高度不同，但是，传统办公椅大多是均码。哈勃，不一样，椅背独立升降 50MM，完成 130MM 身高调整，跟随脊柱，定制您的身高尺码。

According to medical researches, the largest contributor of the pain in your shoulder, neck and lumbar is your overloaded spine. When there is too much pressure on your spine, the muscles will be allocated to bear some of it, which will then lead to pain and illness. When you are seated, the backrest is the only protection for your spine. As we are of different heights, our spines need protection of different lengths as well. However, traditional chairs with backrests of the same height do not suit everyone. H'UP, is born for this reason. Equipped with a backrest that is adjustable within the range of 50mm, H'UP covers 130mm height difference. It follows your spine, and could be customized based on your height.

想一想，你对时尚的敏感值，潮流的嗅觉度，
背靠“H”形上升的设计艺术，享受时尚包围的快感。

See, you are always sensitive to fashion and new trend.
H'UP, with support of the artistically-designed H-shaped
backrest, is the chair perfect for you.
